 - Working toward “**Trusted Digital Repository**” designation (OCLC/RLG) and OAIS model.
 - In 2008, PQDT audited by the Center for Research Libraries (**CRL**) National Science Foundation grant to study long-lived datasets. Full report by CRL released with many favorable comments for PQDT:

Student Submission Process: 7 Easy Steps

A Seven-Step Process

[*Upload Multimedia, Copyright Filing, and Order Copies are all optional steps]

We set up a unique ETD Administrator site for your students to use. Through a simple step-by-step process, each student can upload his or her graduate work and all relevant information. The administrator for your school is alerted when each student submission is complete, and has the opportunity to review all information before sending the submission on to us.

The Administrator Role

Every ETD Administrator site will have one primary administrator, and depending on the size and needs of your school, you can have additional administrators as well. The administrator is alerted when new submissions are completed, and must review each submission before they are sent to UMI. They can be sent individually or in batches. The administrator can also have the prepublication version of each submission dropped off at a university FTP site.

The screenshot shows the GradShare website interface. At the top left is the ProQuest logo with the tagline "Start here.". To the right is the "GradShare BETA Graduate Student Community" logo. A login section contains fields for "user id" and "password", a "Log In" button, and a "Forgot password?" link. Below the login section is a blue banner with the text "GradShare - Where graduate students help each other succeed. Join the community.". The main content area features four speech bubble icons: "Ask Questions. Get Answers.", "Get expert advice.", "Share your experiences.", and "Access your school's resources: 24/7". Below these is the text "Success in graduate school isn't easy. GradShare can help." and two buttons: "Explore GradShare" (green) and "Join GradShare" (orange). A section titled "What people are asking:" displays a question: "What open-source or free software do you find useful for dissertation writing?" by user "avi, Philosophy". At the bottom, there is a footer with copyright information: "©2008, ProQuest, LLC All rights reserved. | Privacy Policy | Terms of Service | Community Guidelines".
